

Rence Pacifico Samontañez

Lipa City, Batangas • rencesamontanez@gmail.com • +639451031206 • www.linkedin.com/in/rensuru

PROFESSIONAL SUMMARY

A passionate and driven 22-year-old Information Technology major specializing in Service Management. With a solid foundation in website design, backend development, advanced system integration, and data security, I bring a hands-on approach to learning and problem-solving. Known for being easygoing, adaptable, and eager to take on new challenges. I thrive in team environments and excel at coordination and communication. Although currently a 4th-year student who paused studies due to personal reasons, I remain committed to continuous growth and skill advancement.

EXPERIENCES

MC Café (Computer Shop)

Role: Company Personnel / Manager

Location: Lipa City Batangas

Duration: 2018 – 2020

Responsibilities & Contributions:

- Maintained and cleaned computer units to ensure optimal performance and minimize downtime.
- Handled day-to-day customer interactions, providing technical assistance and ensuring positive service experiences.
- Managed printing and basic administrative tasks, including system monitoring and usage tracking.
- Performed cashier duties, handled transactions, and maintained accurate daily records.
- Assisted in overseeing daily operations, supporting workflow efficiency and customer satisfaction.

Freelancer (Self-Employed)

Duration: 2020 – 2025

Responsibilities & Contributions:

- Provided digital services including content editing, game-related services, and online reselling.
- Managed direct client communications, handling inquiries, requirements, and service delivery independently.
- Maintained service quality, deadlines, and customer satisfaction across multiple projects.
- Developed adaptability, self-discipline, and time management through long-term independent work.

PROJECTS

SoloDEV: (A Self-Development Assistance System with SMS Notifications and Data Mining)

2024-2025

Frameworks & Technologies: Bootstrap, PHP, MySQL (phpMyAdmin), JavaScript, SMS Gateway API, Resend Email API, Number Authentication, Data Mining Techniques, REST-style Backend Logic

- **Situation / Task:** Led the design and development of a full-stack self-development platform aimed at helping users track personal growth, habits, and progress through structured data collection and automated communication. The goal was to transform manual self-monitoring into a data-driven, accessible system.
- **Action:** Designed and implemented a responsive web interface using Bootstrap and JavaScript, supported by a PHP–MySQL backend. Integrated SMS and email notifications to deliver reminders, progress updates, and engagement prompts. Implemented number-based authentication for secure user access and applied basic data mining techniques to analyze user behavior patterns and progress trends for actionable insights.

- **Result:** Delivered a functional, user-focused self-development system that automated progress tracking, improved user engagement through real-time notifications, and demonstrated how structured data can be leveraged to support behavioral improvement and informed decision-making.

SoloDEV Ragnarok: (An AI-Enhanced Self-Development and Wellness Management System)

Frameworks & Technologies: React, Next.js, Node.js, MongoDB, Bootstrap, JavaScript, AI Recommendation Logic, Food & Habit Tracking Modules, REST APIs, Authentication & Authorization, Data Analytics

- **Situation / Task:** Spearheaded the redevelopment of SoloDEV into a more advanced, intelligent platform—SoloDEV Ragnarok—with the objective of improving personalization, scalability, and user decision-making through AI-driven insights and structured data analysis.
- **Action:** Architected and developed a modern full-stack web application using React and Next.js for the frontend and Node.js with MongoDB for the backend. Implemented AI-assisted recommendation logic for food intake, habit optimization, and wellness tracking. Designed modular tracking systems for user behavior and progress, integrated secure authentication flows, and optimized data handling to support scalable analytics and real-time user feedback.
- **Result:** Delivered an enhanced, intelligent self-development system that significantly improved personalization, usability, and scalability. The platform empowered users with actionable insights, demonstrated advanced system design capabilities, and showcased the ability to evolve a product from a basic solution into a data-driven, AI-assisted platform.

EDUCATION

Bachelor of Science in Information Technology
Major in Service Management
Batangas State University – TNEU Lipa Campus
Status: 4th Year College
Expected Year: 2026 – 2027

Senior High School
STI College Lipa
Year: 2019 – 2021
Achievement: Alumni Scholar Student

High School
Bolbok Integrated National High School
Year: 2015 – 2019
Achievement: School Achiever

Elementary School
Bolbok Elementary School, Lipa City
Year: 2011 – 2015
Achievement: School Achiever

SKILLS

Technical & Digital Capability

- Full-stack web development with hands-on experience in building, improving, and scaling real-world systems.
- Strong understanding of how software, data, and user experience work together to solve practical problems.
- Comfortable learning new tools and technologies quickly to meet project or operational requirements.

Communication & Service Mindset

- Clear, professional communicator able to adapt tone and explanation based on the audience or situation.

- Experienced in maintaining composure and clarity during complex, time-sensitive, or high-pressure interactions.
- Focused on delivering reliable, respectful, and solution-oriented experiences in every engagement.

Problem-Solving & Critical Thinking

- Approaches challenges analytically, breaking problems down into actionable steps.
- Makes informed decisions by balancing logic, data, and real-world constraints.
- Able to work independently while staying aligned with team goals and expectations.

Ownership, Discipline & Reliability

- Takes responsibility seriously, following through on commitments without the need for constant supervision.
- Manages time and priorities effectively in both structured and flexible work environments.
- Consistently aims to improve performance, process quality, and personal effectiveness.

Collaboration & Growth Orientation

- Works well with diverse teams while maintaining accountability for individual contributions.
- Open to feedback and apply it immediately to improve results.
- Views growth as a shared investment—bringing value first, then building long-term impact.

TECHNICAL SKILLS

Programming & Markup Languages

JavaScript (ES6+), TypeScript, Python, Java, PHP, HTML5, CSS3

Frontend Development

React.js, Next.js (App Router), Vite, Responsive Web Design, Cross-Browser Compatibility, Tailwind CSS, Material UI (MUI), Bootstrap, Sass, Framer Motion, UI/UX Implementation

Backend Development & APIs

Node.js, Express.js, Python (Flask), Java Backend Development, RESTful API Development, API Integration, Authentication & Authorization

Databases & Data Engineering

MongoDB, MySQL, PostgreSQL, Database Design, Data Modeling, SQL Query Optimization

Cloud, Deployment & DevOps

AWS (Cloud Computing), Docker (Containerization), CI/CD Pipelines, Vercel, Render, Hostinger, Environment Configuration & Deployment Automation

Data Analytics & Visualization

Power BI (Dashboards, Reports, DAX, Data Modeling), Data Analysis, Performance Optimization, API Testing, Data Validation

AI, Automation & Integrations

OpenAI API Integration, AI-Assisted Development (ChatGPT, Cursor, Claude), Workflow Automation (n8n, Zapier)

Development & Collaboration Tools

Git (Version Control), GitHub, VS Code, Postman (API Testing), Figma, Canva

TRAINING AND CERTIFICATIONS

Certifications & Professional Training

Google Data Analytics Certificate

Google — Coursera

Issued: November 2025

Google Project Management Certificate

Google — Coursera

Issued: November 2025

BITCON Training Program

LASCA (Paid Professional Course)

Completed: May 2025
